

STOP BY FOR A WHILE

love to have ya!!

Welcome to the Geographical Center of North America! We extend warm greetings to all visitors and look forward to showing you around our fun and relaxing community.

From recreational facilities and unique shopping opportunities, to the museums and historical landmarks, Rugby has everything you're looking for. Whether it's a weekend getaway or just a day trip, we have the services and attractions to make your visit memorable.

RUGBY, ND IS PART OF THE "MY TOWN" DOCUSERIES FILMING MAY 2024

DON'T FORGET THE SELFIE!

Anyone can direct you to our city's featured attraction:

the stone cairn that marks the Geographical Center of North America. It is 21 ft high and 6ft wide and set on a heart shaped foundation. The location was established in January 1931 by a U.S. Geological Survey. The cairn was completed in August 1932 by W.B Paterson and E.B. Paterson with assistance from the local Boy Scouts and other community volunteers. The local Lions Club donated the construction materials and a landmark was born. It remained in that location until July 1971 when Highway 2 was changed to a four lane and it's location was becoming a frontage road. At that time it moved to it's present location of the SE corner intersection of Hwy 2 and 3. In 1994 3 flag poles were added to represent the United States, Canada and Mexico (the countries making up North America).

an amazing stop in Rugby 😊

RUGBY

North Dakota

We are a BLUE RIBBON SCHOOL
